

It seems that most of our "rights" are being decided by competition instead of the people. I was (and still am) so excited when I found out that my new car had a satellite radio included. The small amount that I pay each month is worth it. I get so tired of commercials, talk, and music that I don't want to hear. Satellite radio let's ME decide on what I want, when I want it. I have noticed that I am a MUCH calmer driver now, even in heavy traffic. Plus if I need weather, traffic, etc, they offer it 24/7 so I can find it out when I need it, but don't have to hear it every few minutes if I don't. PLEASE don't take this "right" from me or anyone who chooses to have (and pay) for satellite radio. It is the same as having premium channels on our TV's. Sometimes I HATE listening to so many commercials while I am trying to relax and enjoy a movie.

Sincerely, Robin Miller Smith
